MILROY SUFFERS \$10,000 BLAZE

Disastrous Fire Destroys Gwinn Mill and Elevator Early This Morning at \$8,000 Loss.

COMBUSTION IS THE CAUSE

Destroys Outbuilding and Considerably Damaged Innis Home in the Same Vicinity.

A disastrous fire, which entailed a loss of \$8,000 to James M. Gwinn of 110 North Perkins street, with offices over the Caron candy kitchen, and a loss of approximately \$2,000 to Perry T. Innis, president of the Milroy bank, occurred at Milroy early this morning, when the Gwinn mill and elevator was burned to the ground and Mr. Innis' home was damaged considerably as the result of the Gwinn blaze. The fire was discovered in the "dog watch," which is the highest point on the elevator, about 12:30 o'clock this morning and the alarm was soon spread, but the effort of the volunteer fire department of Milroy were all in vain. The loss to Mr. Gwinn is estimated at \$8,000 with \$4,500 insurance. The bank president's loss is estimated at \$2,000 with insurance to cover the amount.

The owner, as well as many other Milroy people believe that spontaneous combustion is the cause of the fire. Last summer Mr. Gwinn discovered a leak in the roof, which allowed the water to get down into the bran bin. Much of the bran got wet and at that time the owner planned to repair it and take the wet bran out. He let that go after he found that the rain had beat in under the shingles and that the leak was not caused by a hole in the roof. Yesterday afternoon Mr. Gwinn found the rain had again seeped in under the shingles, ran down the flue and into the bran bin. He supposed that the wet bran caused combustion and set the roof on fire. It is generally conceded by the people who arrived shortly after the blaze was discovered, that it originated just above the bran bin in the highest part of the elevator.

The statements of the spectators who arrived at the fire first vary. Many say that only a portion of the highest part of the elevator was ablaze, while others declare that the whole building was in flames shortly after the fire was discovered. The building was a frame structure and burned quickly. There was a rather strong wind which fanned the blaze and carried sparks all over the town, which caused many grave apprehensions.

Besides the valuable building which was located at the extreme western edge of Milroy on the creek, all the contents were completely burned. All of the machinery, several wagons, 350 bushels of wheat, 100 bushels of corn, office furniture and many other articles were consumed in the blaze.

The home of P. T. Innis, which is located just across a vacant lot from the elevator, was in grave danger all the time the fire was in progress. It was only by the valiant efforts of the volunteer fire fighters and the fact that the Innis house had a metal roof that the house was saved from destruction. As it was, the house was damaged considerably; the paint on the side walls was cracked; window glasses were cracked and broken by the heat.

The Innis barn back of the house caught fire and was completely destroyed. It was insured for \$100. A valuable touring car was saved, when firemen tore out one side of the barn and pushed the machine out. The

heat was so intense that it was impossible to take it out through the door, which was on the side next to the elevator. The chicken house, back of the Innis home, was also burned.

COMPLIMENT GOV. HALL

Friends Say he is Parliamentarian of First Water.

Lieutenant Governor Hall is in receipt of many compliments for the very able and skilful manner in which he handled the senate in the trying times of the Proctor regulation bill, says the Indianapolis News. Mr. Hall proved himself a parliamentarian of the past master's degree, and his rulings came near getting him applause several times. But for the firm grasp the Lieutenant Governor had on the situation "chaos might have reigned," or words to that effect.

MORE HISTORY IS UNEARTHED

After Finding Human Hand Workmen Came Back With Old Account Book.

BELONGED TO DR. H. G. SEXTON

Also Discovered Iron Mortar and Pestle—Presented to Jabez Smith's Art Gallery.

Workmen who are excavating in the rear of the room formerly occupied by the Jones dry goods store, continue to unearth many strange sights. After finding a human hand Saturday, they came back today with an old account book of Dr. Horatio Gates Sexton, dated 1837. They also found an iron pestle and mortar which is supposed to have belonged to the doctor.

The book is well preserved and the writing, which is in ink can be easily read. That doctor Sexton had an extensive practice is evident by the large number of entries in the book. The relics have been given to Jabez Smith and attracted the attention of a number of visitors at his art gallery.

In the book was found, written on a separate piece of paper, a report from a committee appointed by the citizens of Rushville on a proposed drain for the city. In this report several plans for the drainage of the city are named. The document is really remarkable when one takes into consideration that the city of Rushville was just getting a good start on its career.

Since the finding of the hand last Saturday, several theories have been advanced as to whose it was and how it came to be buried there. Many of the older citizens recall when Dr. Marshall Sexton had his office in this building. During this time George Wilson met with an accident in a campaign rally and Dr. Sexton amputated his hand and later his arm. They say that the hand was kept by Dr. Sexton in a jar of alcohol and labeled, telling whose it was. Later, it is thought, the hand was buried, and thus the workmen happened to make the find. This theory seems to be the best advanced so far and some of the old timers say it is a fact.

COUNCIL MEETING.

The city council will meet tonight in the first regular session of this month.

TWO EXPLOSIONS FOLLOW FIRE

Lewisville Residents Undergo Day of Excitement, Equal to None in Town's History.

NEW DEPARTMENT GETS WORK

Myer House Was Burned Beyond Repair—Opera House Lighting Plant Blows Up.

The residents of Lewisville, a small town on the Henry-Rush county line, are just now recovering from a scene, which they underwent Sunday and which came as a heavy disaster to the town. A destructive fire shortly before two explosions in the Guyer opera house, there, all within two hours, created more excitement than has been current there for years.

According to the New Castle Courier the first fire alarm was sounded about 9 o'clock and the explosions followed about 11 o'clock. Worshipers at church services were thrown into a panic and the ministers immediately dispensed with sermons.

The fire was located in a house owned by Will V. Myer and occupied by Arthur Judd and family. The blaze started in a defective chimney and burned rapidly. The fire department, which was recently organized, responded for the first time and although the water pressure was good, they were unable to cope successfully with the flames and the house was damaged beyond repair. Judd managed to save some household goods and carried no insurance. Myer had no insurance either. The loss was \$500.

Excitement caused by the fire was just subsiding when the acetylene gas plant in the Guyer opera house let go with terrific force. Windows were blown out of the building and the explosion shook everything in town.

A leak in the plant or pipes was discovered and Will Hickman and Arlie Rick were engaged in locating the leak to make the proper repairs. They started out with a lighted lantern and naturally found the leak.

Hickman was blown through the door on the stage and landed in a heap, but was not badly injured. A second and more forceful explosion occurred and more windows were blown out, from which great clouds of dense smoke came.

Ricks was unhurt and made a bee line for the stairway and broke down a door getting out of the building.

The opera house is on the second floor of the building which is occupied by the Lewisville National bank and the Batson store. The gas plant was located at the rear of the stage, but it is thought that the leak was under the stage. What caused the second explosion could not be determined.

Frank Joyce and little son of New Castle had just alighted from an interurban car in front of the bank when the second explosion occurred. Flying glass struck him and cut his overcoat, but neither Mr. Joyce nor his son received injuries.

Smoke poured from the building and many believed it was on fire. The fire department got into action again and threw some water, but it was unnecessary. The most serious damage resulting from the explosion consists chiefly of blown out windows in the building. Hickman was burned slightly and considerably bruised, but is out and around as usual. The damage is confined almost altogether to the second floor of the building.

WILL PETITION FOR LICENSES

Two Former Saloon Keepers Advertise Today and it is Rumored Others Will Soon.

COMMISSIONERS APPOINTED

Seven Other Elections Will be Held on Same Day as One Here.

That the "wets" are confident of victory in the coming election or that they feel the election will never be held is evidenced by the fact that two men advertised for saloon license in the weekly Republican today and that three more are contemplating advertising in a very few days. James McCormick and Clyde Miller, both former saloon keepers, will apply for licenses and it is said that John Cooning and Mike Scanlan, also former saloon keepers, will advertise in other city papers today.

The petitioners for saloon licenses will come up for a hearing at the regular meeting of the board of commissioners the first of next month, March sixth. If the new bill which is contemplated to amend the Proctor law is passed only five saloon can do business in Rushville, in case the city does go "wet." The measure provides that there shall be one saloon to every one thousand inhabitants and with one for the first five hundred.

Late yesterday evening the county commissioners appointed election commissioners for the coming option election, the date for which they set the last day of this month, early yesterday morning. The commissioners are A. L. Gary and Donald Smith.

MISS M. B. LACY TO REPRESENT WOMEN

Former Local High School Instructor Now of Indianapolis Will Respond to a Toast.

AT ANNUAL I. U. BANQUET

Miss Mattie B. Lacy, formerly instructor in History and German in the local high school, but now instructor in the Manual Training high school in Indianapolis, will represent the women graduates of Indiana University in the annual alumni dinner, which will be given at the Denison hotel in Indianapolis tomorrow evening at 7:30. It is very probable that several local graduates of the State school will be in attendance, including Lieutenant Governor Frank J. Hall.

The gathering will take the nature of a jollification, following the favorable action of the legislature on the gift of Dr. and Mrs. Robert W. Long for the erection of a hospital in connection with the Indiana University school of medicine.

Miss Lacy will respond to the toast, "Co-education and the Suffrage Movement." Other speakers and their subjects are: State Senator Edgar Durre, Evansville, "Our Alma Mater;" Dr. John F. Barnhill, of the School of Medicine, "The University and the New Medical School Movement;" Ralph V. Sollitt, of the student body, "The New Indiana;" Speaker Albert J. Veneman, Evansville, "At Random," and President W. L. Bryan, "Indiana University."

RILEY GEORGE RECOVERING

Loses His Right Arm in Accident Sunday.

Riley George, who lost his arm in an accident in Omaha, Neb., Sunday is recovering nicely and according to a telegram received this morning by his parents, Mr. and Mrs. William George of near New Salem, from his brother, C. M. George, who is at his bedside. Mr. George's right arm was amputated at the shoulder. The particulars of the accident are still unknown, but a letter is expected now at any time giving the details.

CONNERSVILLE CASE STARTED

Famous Waterworks Suit Begins in the Circuit Court Here Today.

LITTLE IS ACCOMPLISHED

Defendant Files Objections to Pleadings Which Are Overruled—Plaintiff Comes Back.

The airing of the famous Connersville waterworks controversy began in the circuit court this morning and it is likely that it will continue for some time from the poor start which it received today. The argument on the pleadings occupied the time of the court all day and it was not expected that any evidence would be introduced before tomorrow. Mayor Finly H. Gray, who was elected to congress from this district, is taking an active part in the fight and is appearing as one of the attorneys for the city. The Connersville Hydraulic company, which is owned by E. Dwight Johnston, filed suit against the city, while the city is preparing to build a waterworks of its own.

The case was not started until ten o'clock this morning. The defendants, the city of Connersville, filed objections to the pleadings and their objections were overruled after the attorneys for both sides had been heard to considerable length. The plaintiff filed an answer to the defendant's objection and at a late hour this afternoon Judge Blair had not yet ruled on that question.

It was expected a great amount of evidence would be introduced today and for that reason several members of the city administration were here, City Councilman William Merrel, S. K. Tingley, Frank H. Tamm and William Wadsworth. Besides the councilmen, the city attorney, L. L. Broadus, and the mayor were here in the case.

Florea & Broadus, Mayor Finly Gray and James Clifton are representing the city, while Conner, Conner and Christman and McKee, Frost and Elliott, all of Connersville are attorneys for the hydraulic company.

CHANGE OF VENUE.

On a change of venue from Hancock county circuit court, the account suit of the State of Indiana on the relation of Albert Greely and Roland E. Greely, doing business under the firm name and style of "The Greely Stone Company," vs. Alonzo Hooter and Raymond Hooter doing business under the firm name and style of "The Greely Stone Company," has been brought here. The plaintiffs demand \$1,800.

LOVE'S LABOR LOST REPEATED

Don Rogers, Once Soloist Here, Jail- ed in Muncie For Financial Irregularities in Anderson.

SAME GAME IN HUNTINGTON

Married For Money, Bride Gave Him Cold Shoulder and Check Forgery is Result.

The career of Don Rogers, formerly soloist at the Vaudet, and who made his home here for years, since he left this city and married a Huntington girl, has been a decidedly checkered one. He has been wanted badly in Huntington for several weeks and has never shown up there since he disappeared. A few days ago he was arrested in Muncie, while singing in a motion picture show, on information from the Anderson police. It has developed that he is wanted in Anderson also for forging a check. Of his troubles, the Huntington Herald says:

It has developed that Don Rogers, who was arrested in Muncie Thursday on charges of financial irregularities, issued a number of checks on the Huntington County and the First National banks of this city. He had no deposits in either, making the offenses punishable the same as forgery. The arrest resulted from investigations made by the Indiana State Bankers' association after report had been made to the organization of the operation of the operation of the operation of Rogers. His wife has turned him down, too.

Rogers' last visit to Huntington was under cover of darkness and he was then in sore financial straits. There was a warrant for his arrest at the time on the charge of assault and battery against Freddie Hames, but he evaded arrest. Rogers' is but another instance of "couldn't stand prosperity." He came to Huntington as the "man behind the voice" in local moving picture shows operated by Miss Lerner, who had come here but the month previous and purchased the local picture houses.

Rogers became inspired with the idea that Miss Lerner represented a big slice of predatory wealth and he set his stakes to capture as big a share of it as possible. He made love ardently. His wooing was urgent. The heart of Miss Lerner responded and their marriage followed. They took a short honeymoon, spending time and the bride's money in Chicago. On their return, Mr. Rogers assumed entire management of the three play houses and his bride's finances. For a few weeks he lived a life of excesses and it told on him. The end came quickly.

But another tale of "Love's Labor Lost." Mrs. Rogers soon awoke to the fact that she had apparently been duped. Her brother hurried here to her assistance from South Bend. He sent his sister home and Rogers was given the tip to hike. He went to Muncie and finally secured a job as vocalist in a picture show there. With heaps of ready cash denied him, and his cravings just as elaborate and not to be suddenly checked, he resorted to checking that put him in the present serious difficulties. The local banks will not suffer by the checks issued against them.

THE WEATHER

Why It Made Her Mad.

"He is so conceited."
 "Is he?"
 "Yes; he thinks I am in love with him."
 "Aren't you?"
 "Yes, but what has that got to do with it?"

Interesting Start.

"They ought to try to make higher education more attractive."
 "What more could they do?"
 "But what do they do now?"
 "Start Latin students to conjugating the verb to love."

As He Had Heard It.

"Mr. Soaker, can't you go along with us? The night is so dark."
 "Are you afraid?"
 "Not exactly. But ma says your nose would make such a fine headlight, and we want to see if it will work."

HE HAD JUAREZ IN HIS GRASP

And Then He Let It Go, Did Gen. Orozco.

STARVED OUT OF HIS POSITION

At Least That Is the Explanation Given by the Revolutionary Junta at El Paso For the Inexplicable Action of Rebel Forces Withdrawing Just as They Had the Beleguered City in Their Possession.

El Paso, Tex., Feb. 7.—From all directions troops of both armies are concentrating, but where is Pascual Orozco, and why did he withdraw and let Robago come into Juarez?

Orozco, the leader of the rebels, has gone and Juarez has been reinforced. The members of the revolutionary junta in El Paso explain that Orozco had no food nor water for men or horses and had to quit the fight for this reason. He is said to be west of Juarez. Reinforcements are reported as coming from the south and east for the rebel army. Also reinforcements are reported as being enroute from Chihuahua for the Juarez garrison.

Orozco had Juarez in his grasp. He could have taken it easily. He was between Juarez and Colonel Robago and his reinforcements from Casas Grandes. He had them hemmed up in a valley with his men on the hilltops surrounding, where they could shoot at will. That he had the best of the fight was demonstrated by the number of killed and wounded in the engagement Sunday. The rebels lost one dead and twenty-six wounded, including five women camp followers (wives

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch. Because—D. D. D. starts the cure at the foundation of the trouble. Because—It cleanses, soothes and heals the skin.

Because—It enables Nature to repair the ravages of the disease. Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.

of soldiers), while Orozco lost none killed and three wounded. He was not short of ammunition, for no man had less than one full belt of cartridges, and many had two or three.

News comes of the capture by the insurgents of San Ignacio, thirty-five miles down the river. This is the second time it has been taken by the rebels. General Luis Terfiaz, the land and cattle king of Chihuahua, and his son, Alberto Terrazas, who until last week was governor of that state, have gone to Mexico City in a private car.

A work train sent out from Chihuahua has, it is learned, repaired the bridges wrecked and burned between Gallego and Montezuma. There are no destroyed bridges below Gallego. In all twenty-four bridges were destroyed between Juarez and Chihuahua, and five of these have been repaired. Juarez has absolutely no train or wire connection with the rest of Mexico.

Last Friday a number of bandits entered the small town of Rosales, about twenty-five miles south of Chihuahua, and helped themselves to clothing, groceries and bottled goods. Then they captured the Jefe Politico, Don Jose Angel Rebles, and compelled him to accompany them. A few hours later the banditers robbed the station at Ortiz of \$1,000 and disappeared.

The revolution has appeared in Sinaloa. A band of revolutionists appearing at Tamazula near the line of Sinaloa, secured \$800 by threatening merchants, on Sunday, and the insurgents, numbering eighty, are said to be headed for Culiacan. Governor Redo has sent 100 men out to meet them.

STRANGE ATTACK

Lafayette Fireman and His Wife Cruelly Beaten by an Unknown.

Lafayette, Ind., Feb. 7.—James Donovan, a member of the city fire department, was a victim of a mysterious assault at his home in North Sixth street. His wife was also attacked. The assailant entered their house through the back door, and without giving any explanation pounced on Donovan and his wife and beat them cruelly. Both are in a hospital and Donovan's condition is serious. He was beaten with a club until he lay unconscious on the floor. Mrs. Donovan was attacked when she attempted to defend her husband. The assailant had a knife in one hand and used it on Mrs. Donovan.

The police are conducting an investigation, but there is no clue and no motive, as far as the police are able to learn.

His Preference.

"Once he had a home of his own."
 "Where is it now?"
 "Same old place."
 "And he?"
 "Seemed to prefer the saloon, so he finally had to stay there."

Would Starve First.

"A man paid \$20 for a hen's egg."
 "Just one egg?"
 "Sure!"
 "I'd hate to be as hungry as that."

Kind of One.

"Is he a linguist?"
 "Well, he listens in six different languages."

POWDER FACTORY IN MICHIGAN LETS GO

Ten Men Blown to Pieces in Fearful Explosion.

Ishpeming, Mich., Feb. 7.—Nine men, including the foreman, were killed outright, one is missing, thought to have been blown to pieces, and another injured as the result of an explosion at the Pluto Powder company's factory about five miles south of Ishpeming, late yesterday afternoon. The nine known dead were all at work in the gelatin building when the explosion, the cause of which the officials of the company declare to be a mystery, occurred. The company employs about thirty-five men and the loss of life would have been greater had not a large batch of dynamite been removed from the gelatin building an hour before the explosion occurred.

Only portions of the men's bodies have been found.

The Scientist.

"Doctor."
 "What?"
 "Your wife has eloped."
 "Good gracious! And I had just begun an expensive experiment on her!"

Every Little While.

"When's her birthday?"
 "Whose?"
 "Maud's."
 "The day she clips a year off her age. Happens about twice a year."

The Modern Malady.

"I live in a madhouse."
 "What?"
 "Fact. Everybody in it is perfectly crazy about something."

Suspicious.

"Does he belong to the trust?"
 "No."
 "Why doesn't he come in?"
 "He isn't trustworthy."

Longing.

Though winter's robust charms I sing
 And say it is all right,
 I long for just a taste of spring
 To whet my appetite.
 I own that winter is the stuff—
 I do not mind its sting—
 But, then, enough is quite enough,
 So pass a slice of spring.

Backache, Rheumatism And Nervousness

Mean disordered kidneys, Foley Kidney Pills have helped your neighbors; they will also help you. Mr. W. S. Kirkpatrick, Greenfield, Ind., says: "Ever since I had typhoid fever several years ago I had been troubled with kidney trouble. My kidney action was irregular and painful and there was a deposit of sediment. My back ached severely, my ankles were swollen and even my heart was affected. Headache and dizziness, bothered me daily. I took two bottles of Foley Kidney Pills and these stopped all backaches and pains in my spine and strengthened the kidneys so that the action was normal. My heart and head bother me no more and I can once more attend to my work without suffering." Sold by F. B. Johnson & Co.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Held For Manslaughter.

Brookville, Ind., Feb. 7.—William Shields, wanted here on the charge of manslaughter, has been arrested at Newcastle. Shields quarreled with his father and is said to have struck him over the head with a coal oil lamp, the burns causing death.

Indianapolis, Feb. 7.—Reports to the effect that James Whitcomb Riley, the Hoosier poet, is seriously ill, have no foundation in fact, as Mr. Riley's condition is better now than it has been at any time since he had a paralytic stroke three months ago.

Hanged Himself in Stable.

Fort Wayne, Ind., Feb. 7.—Frank Tyler, aged thirty, a teamster, unmarried, hanged himself in a stall of the stable. No motive is known.

Another Postoffice Robbed.

Washington, Ind., Feb. 7.—The Washington postoffice was entered by robbers who climbed over the partition from the corridor and took \$20.50 in wrapped silver and \$148.53 in stamps.

TOO MUCH LOOSE CHANGE.

It isn't a good idea to carry a lot of small bills and loose change around with you because the money gets away from you too easily.

With a lot of money in your pocket you fall an easy victim to your own extravagance and the requests of your borrowing friends.

Start a savings account with this bank now and put your surplus money where it will be safe from yourself and from others who may have designs upon it.

The 3 per cent compound interest will help it grow surprisingly.

You will find it convenient to have a checking account as well and pay all your bills by check. A safe, clean and economical way of doing business.

RUSH COUNTY NATIONAL BANK.

WILL PETITION FOR LICENSES

Continued from page one.

It is a notable fact that seven other counties in the State of Indiana will hold local option elections on the same day that Rushville will. County commissioners all over the State yesterday granted the prayers of the temperance forces, and called elections under the new law. Practically all of the elections will be held the latter part of this month and the first of next month.

LOCAL OPTION TALK.

(Connersville News.)

The petition for a "wet" or "dry" election, under the new city option law was duly filed by the Fayette Citizens' League with Auditor Kennedy at nine o'clock Saturday night. The petition bore 584 names.

At two o'clock Monday Attorney R. N. Elliott, representing the League and Attorney E. G. Johnston, for the local liquor men, addressed the board briefly.

The commissioners asked for an hour for deliberation at the end of which they granted the prayer of the petitioners, fixing Tuesday, February 28, as the day on which to hold an election. This will leave Connersville "automatically wet" just three days preceding the election as the county option election was held on February 25 two years ago.

(New Castle Courier.)

The New Castle Ministerial Association met Monday afternoon at the home of Rev. Frank P. Morris of the M. E. church for the purpose of discussing the probable result of petitioning for an election to determine in that manner whether or not intoxicating liquors shall be sold. The ministers expressed their views on the matter, but no decision was reached.

At 2:30 o'clock Monday afternoon Rev. Morris stated that the ministers upon whom the work of securing the signatures to petitions would devolve did not care to go into the campaign and do all the work themselves. They, however, stand ready and willing to do everything in their power provided they have the support of the public.

(Shelbyville Democrat.)

The names of two hundred and twenty two voters appear on a peti-

tion asking for an option election in Brandywine township that was filed with the county board of commissioners Monday.

The petition filed Monday follows closely on the heels of the one presented Saturday afternoon from Hanover township. Thirty-four percent of the voters in Hanover signed the petition.

The county commissioners will act on the two petitions Wednesday. It is reported that several other petitions from out-townships of the county will be filed with the commissioners at their present session.

(Greenfield Reporter.)

The mass temperance meeting held at the Christian church Sunday afternoon was the most enthusiastic gathering of any nature, that has been held in Greenfield in many weeks. The citizenship of Greenfield was well represented and was also represented well. The meeting was for the purpose of reorganization of the temperance forces and getting the work and plans started for a local option election under the new city and township unit law which went into effect upon being signed by Governor Thomas R. Marshall Friday afternoon.

FLAMES DAMAGED HIS FRUIT TREES

Moses Vanderbark of Knightstown
Alleges That in \$5,000 Damage
Suit Against Big Four.

CAUGHT FIRE FROM SPARKS

Moses R. Vanderbark, living near Knightstown has filed suit for \$5,000 damages in the Henry circuit court against the Big Four railroad, charging that sparks from a locomotive fired the grass along the track of the company through his farm, the fire getting into the orchard and damaging 1,600 peach, apple and pear trees.

The complaint sets forth that the railroad company allowed debris, consisting of dry grass and leaves, etc., to accumulate along its right of way through his farm and that sparks were emitted from one of the company's locomotives which set fire to the grass and the fire was allowed to get beyond the bounds of the company's right of way and into Vanderbark's orchard.

AMUSEMENTS

The Palace will have an Essanay film tonight entitled "The Count and the Cowboys." It is a comedy dealing with western life. A new illustrated song will be sung.

The Star Grand will present two of the Powers picture plays tonight. The first is a drama entitled "The Pinkerton Man," and the second is a comedy entitled "Beaux Not Wanted." Earl Robertson will sing a ballad entitled "Dearest." The Butt in's will be here Thursday.

The first picture at the Vaudet will be an Itala film "Foolshead, the Funny Man, he Knows All and Does All." This is another of those funny pictures with Foolshead the principal character. The other picture will be a Reliance film, "In the Gray of Dawn." These pictures never fail to please and this one is said to be a good drama. A new illustrated song will be sung.

"The Old Homestead" will be the attraction at English's opera house on Thursday, Friday and Saturday, including a matinee Feb. 9, 10, 11.

The new generation wants to see it now and they rush to it in droves, quite assured by their elders long before the curtain goes up that it's "beautiful." Who cares if it teems with old fashioned soliloquies, farm-hand double quartets, jokes that Uncle Joshua made folks laugh about more than a score of years ago. The stage from both sides of the footlights owes a bigger aesthetic debt to Mr. Thompson than the stage realizes. People who overlook "The Old Homestead" miss a great treat in this life.

SOCIETY NEWS

The Utopia club will meet with Mrs. T. A. Craig at her home in North Harrison street Thursday afternoon.

* * *

A dinner dance will be given in the Social club house tomorrow evening. The women of the club are requested to bring sauce dishes.

* * *

The U. G. I. Go club dance, which will be given in the Modern Woodman hall Friday night will no doubt attract a large company, due to the fact that the Auditorium orchestra of Connersville will furnish the music. The orchestra is very popular here where it has played many times. It is now augmented by an additional piece and their work is said to be far better than it was last season. The grand march will begin promptly at 8:45 o'clock. A number of out-of-town guests are expected.

* * *

A "measuring" party is given to you. 'Tis something novel, something new. We "Christian Endeavorers" ask all to come.

One cent for every foot you're tall. We'll measure you on door or wall. An extra half cent for each inch give And thereby show how high you live. With music and song, refreshments and pleasure, We'll meet one and all at our party of "measure."

To be given in basement of Main Street Christian church, Wednesday evening, February 8, 1911.

EASTERN OKLAHOMA LANDS

The land of opportunity, rich soil and unexcelled climate; rainfall equal to that of Indiana. The last chance to buy good corn land cheap. Remember that land suitable for successful growing of corn is limited. You will not find it in the Northwest or in the mountain country west; and the south land will never be a corn country in a commercial way. Our lands are also suitable for all the small grains, an excellent fruit country and the Stockman's Paradise, for no where in these United States will you find conditions so favorable for the growing of good stock. We make a specialty of farm lands and have a large number of good farms located close to good towns and markets, where you have plenty of good northern farmers for neighbors, free schools, telephones, R. F. D. of mails. If interested write for further information or come and see us. Room 335 Eupity building, Muskogee, Oklahoma, a city of 30,000.

CHAPTER XVI.

THE room in the Fourth National bank of Springfield, Ill., in which the new vault had been constructed, was a large, somber inclosure, with a door at one side, opening from the assistant cashier's office, and one directly opposite, which led to a narrow hallway opening into the main hall.

Along this narrow hallway were doors opening into the offices of various officials of the bank. The vaults in which were kept the currency and negotiable papers, bonds, stocks, notes, etc., were on the floor below, and the new vault built against the wall at the rear of the room was designed as a receptacle for the bank's books of account. Therefore it had a larger interior than an ordinary vault, and as the shelves had not yet been built in there were several feet of free space inside, which would be occupied by books and records later on.

The huge steel ribbed door had been left invitingly open by the workmen engaged in adding the finishing touches, and consequently it afforded an unequalled source of delight to Bobby and Kitty, whose active imaginations readily converted the interior of the vault into the cave of daring smugglers who, presumably gone on a desperate enterprise, had left deserted their secret cavern and the precious contraband articles which, Bobby assured Kitty, were surely to be found therein. So what was there for a high spirited little girl to do, when her brother, who never failed at asserting his superiority over a mere girl and the superiority of the "men folk" in general, insisted that she go first into the yawning blackness of the big safe? Surely she must maintain the traditions of the fearlessness of her sex as she knew them and "take the dare" which Bobby forced upon her.

Slowly into the steel bound shadows she went, her waxen faced dolly clutched tightly against her throbbing bosom—yet in she went. Suddenly the huge door scraped shut. All was blackness. As she screamed in her fright she heard the click of the metal bars as Bobby playfully turned the handles. Then all was silent, save for the moans of the little girl as she lurched blindly toward the door of the safe and scratched the metal thicknesses with her tiny nails.

The dolly fell to the floor, the ends of the soft little fingers began to bleed from frenzied contact with the bars that ribbed the interior of the safe door, and after a few moments the wee girl's form sank limply to the bottom of the vault, where she gasped convulsively to breathe in the air that was gradually losing its life supporting qualities. Not many minutes would elapse ere she had consumed all the precious oxygen in the suffocating interior of the necessarily air tight vault.

As Jimmy Valentine dashed into the vault room he cried to Red Flanagan, who was at his heels:

"Go get one of the clerks to run for some sandpaper. I make stone is too soft for this job. My fingers are not in shape for a trick like this. Go! Run!"

Red turned and darted away on his urgent errand. Well he knew just how necessary it was for Jimmy Valentine to have sandpaper to rescue Kitty if it were true that the skin on his fingers had grown calloused or had reached even his natural thickness.

Jimmy Valentine pulled manfully at the handles of the vault door. Perhaps, after all, the combination had not been turned and only the door's weight held it in place. But the metal barrier would not move. He pressed his ear to the hairlike crack. He heard the sound as of a little body falling to the floor and the faint moans of the prisoner calling, "Bobby, Bobby, Bobby!"

Valentine bent over the combination, peered sharply at it, then began to twist the cylinders gently. Around and then back he turned the knob. No; it was of no use. Nothing could be done until the sandpaper arrived. His fingers had lost their sensitiveness and hence their cunning, and in the

meantime Valentine well knew the prisoner was consuming whatever of the priceless air that remained.

The door leading from his office swung open, and again Red Flanagan darted in. He flung himself on the vault room floor directly below Valentine's knees and held his ear close to the crack of the safe door.

"Think you can make it, Jimmy?" he gasped.

"Guess so; never failed on a lock like this. Why, in God's name, don't that fool come with that sandpaper?" Valentine was desperate at the delay.

"He's gone to a—here he is!" cried Red as he heard hurrying footsteps in the assistant cashier's office. Red jumped to his feet and out into Valentine's room. He seized the roll of sandpaper from the messenger's hands.

"What are you going to do with it?" asked the inquisitive clerk.

Red shoved him away and darted back toward the vault room. "None of your business," he cried, "and keep out of here."

"Give it here. What is it?" exclaimed Valentine as Red ran to him.

"No. 4."

"That's best. Is the bank empty?"

"Yes, thank God, Mr. Lane has gone. There's no one here to pipe what we're doin'—and even if there was we'd just naturally have to go through with it—for that girl Kitty—"

"Shut up!" cried Valentine nervously. He bent over and rubbed his fingers briskly across the gritty surface of one of the sheets of sandpaper which Red had handed him—rubbed until the white flesh showed pink.

Red stood and watched him breathlessly. The sound of Valentine's fingers scraping back and forth across the face of the sandpaper seemed to his feverish brain the physical demonstration of an evil being, appalled him as a sinister omen of impending doom. He had heard a story of his old grand-

mother's, when a young lad, that often when a person was going to die a mysterious tick, tick, tick, tick would be heard in the fated house, the sound coming as though from a mysterious watch concealed in the wall—the "death tick." As the sound of the scraping fingers continued the zip, zip, zip, zip echoed from the walls and smote into Red's ears and into Red's brain—an uncanny reminder of that long forgotten tale.

And, strangely enough, Red's premonition of the presence of an unseen menace was not without foundation in fact. It may be that this active career in the underworld had developed in him that sixth sense of the habitual thief which sometimes gives him warning of approaching dangers.

As Red stood there fascinatingly watching the rapid play of Valentine's

WHAT IS VINOL?

It Represents Twenty Years' Work of Two Eminent Chemists.

After twenty years of study two eminent French chemists discovered a method by which the alkaloids or medicinal elements of the cod's liver might be separated from the useless oil or grease, retaining all the good of cod liver oil and dispensing with the bad, as the oil has no medicinal value. These medicinal elements blended with tonic iron and a mild medicinal wine—make Vinol.

Vinol is not a secret medicine, as its ingredients are printed on every bottle, and in all cases where the healing, strengthening influence of cod liver oil is needed, Vinol will give better results, for it contains all the curative medicinal properties of cod liver oil, but without the oil, and it is easily assimilated and acceptable to the weakest stomach.

For all run-down, weakened conditions, and to cure chronic coughs, colds and bronchial troubles, Vinol is unexcelled. We sell it always with the understanding that if it does not do all we claim for it, we will refund the money paid for it. F. B. Johnson, Druggists, Rushville Indiana.

fingers the door leading into the narrow hallway noiselessly opened—opened just enough to allow the sound of the scraping fingers to reach the ear pressed against the crack between the door and the jam. A few inches more of space and the face of George Doyle appeared in the doorway.

As the door on opening swung toward the rear of the chamber toward the vault, Doyle, shielded by it, was enabled to put one foot over the sill and stand half within the vault room. Pressing himself close against the door, he could watch in the darkened, shadowy room the operations of Red Flanagan and Mr. Lee Randall, alias Jimmy Valentine.

He saw the sheet of sandpaper flutter to the floor; he saw Valentine lick his fingers with his tongue to ease the burning pain that throbbed through them; he saw Red Flanagan drop on his knees and crouch against the door of the giant safe; he saw Valentine step forward, seize the combination with the tips of his fingers, press his ear against the vault and gently, caressingly, ever so gently, twirl the shining nicked knob of the combination.

George Doyle had his dearest wish gratified. At last he saw the great Jimmy Valentine at work.

ACCESSION OATH HAS BEEN MUCH MODIFIED

Clause Objectionable to Church Stricken Out.

London, Feb. 7.—At the opening of parliament King George recited in the house of lords the accession declaration, which is always made on the occasion of a new sovereign's first meeting with parliament. This declaration was amended last year because of the objections of Roman Catholics to the denunciation of certain of the functions of that church as idolatrous, and now is as follows: "I do solemnly and sincerely, in the presence of God, profess, testify and declare that I am a faithful Protestant and I will, according to the true intent of the enactments which secure the Protestant succession to the throne of my realm, uphold and maintain the said enactments to the best of my powers accordingly."

The king delivered the words in a ringing voice which was in contrast conspicuously to the subdued, perfunctory tones used by the late King Edward when the latter had to recite the harsher terms of the old declaration.

MINERS RESENT IT

John Mitchell's Pennsylvania Friends Hot Under the Collar.

Scranton, Pa., Feb. 7.—There is a growing storm among the mine workers of the anthracite field over the action of the Columbus convention in requiring John Mitchell to give up the union or his position with the National Civic Federation. There is no leader as strong with the masses in this section as John Mitchell.

A printed statement has been made here that an effort has begun among the miners to wipe out the affront to Mitchell by having the amendment aimed at him reconsidered. One miners' local has already condemned the action taken at Columbus. So has the streetcar men's union in Scranton. The latter organization say they have as much faith in Mitchell as a member of the federation as they had in him when president of the miners.

Prison For Bank Wreckers.

Philadelphia, Feb. 7.—Pleading guilty to charges of wrecking the American Trust company, Dr. J. Kinnear Crawford and Joseph S. Crawford, brothers, and vice president and secretary and treasurer, respectively, of the institution, were each sentenced to three years in the county prison and fined \$500 by Judge Ralston.

LEGISLATURE IS PUSHING THINGS

Entering On Last Half of Session With Energy.

MANY MATTERS ARE PRESSING

The Present Week Promises to Be a Busy One in Both Houses—An Effort Will Be Made in the Senate to Revive the Municipal Franchise Referendum Bill—Salary Boost Bills Come Up for Attention at Special Meeting.

Indianapolis, Feb. 7.—On the legislative program there is much for accomplishment this week, and there is promise that the number of bills passed this week will be much larger than the number of last week. However, proposed liquor legislation is not yet out of the way. The Proctor liquor regulation bill, as amended, has been reprinted with its amendments, and copies distributed. More amendments may be offered to the bill. It is also probable that the Proctor bill, which is meant to supplement the Democratic platform local option bill, which is now a law, will be reported out by the committee on public morals and acted on this week.

The house by a vote of 53 to 39 adopted the minority report on the Keegan child labor bill, recommending the passage of the bill as originally reported against the majority report favoring amendments that would have weakened the bill.

To Revive Referendum.

Senator Grube expects to request that his bill for the referendum of public service corporation franchises be called up again on third reading. The referendum bill failed to pass a little more than a week ago on account of the lack of a constitutional majority.

A new registration bill, composed of the best features of the bills already submitted by Senators Harlan and Clark is likely to be presented. It is planned to request that the senate consent that the matter of whipping this bill into shape and reporting on it be referred to a special committee.

Representative Keeney, chairman of the house committee on roads, has appointed a subcommittee to draft a measure embodying the committee's ideas on needed highway legislation. This committee had virtually agreed on a measure to report to the general committee.

The new draft, it was said, will not provide for a highway commission, but will provide for cash payment of all road taxes of more than \$15 a year for any corporation or individual. This is aimed to do away with the practice of "farm out" their road taxes by contract. The distribution of the tax money throughout the townships will be through the boards of county commissioners, much after the present manner.

The committee will not report favorably the highway commission measure, Representative Keeney said. He declared that great opposition to the measure as drafted had developed among the farmers of the state, and that the committee did not feel that the measure should be pushed through in the face of the opposition.

Fees and Salaries Bills.

The house committee on fees and salaries will meet in the house chamber tonight to consider a number of bills having to do with the boosting of the salaries of public officers. The committee already has several bills calling for increases in the pay of public officers in various parts of the state, and the senate has passed other bills which will be in the hands of the committee before the meeting.

None of the bills in hand calls for salary decreases. In every case the demand is for more money. It was a subject for resolution in the house and is a matter of comment that salary increase bills carrying something like half a million of dollars are up for the consideration of the legislature this year.

Chairman Merriman of the house committee on fees and salaries, said: "I understand the senate has passed some of these salary increase bills. But the house has not passed them," he added, significantly. "I want to see the hearing tonight receive plenty of publicity. It will be interesting to the people to know just what officers are here asking for better pay. We all want to know who the philanthropists are."

A Humane Movement.

A bill for the prevention of abuse and neglect of horses and mules has been prepared by the Animal Protection association of Evansville. The framers of the bill say the present laws for the prevention of cruelty to animals do not in reality prevent cruelty, because they become operative only after an act of cruelty has been committed.

The measure provides that owners and caretakers of horses and mules shall obtain licenses. The animals and barns shall be open at all times to inspection by the police, health or humane officers, according to the terms of the bill, and the license of persons violating the law shall be revoked by the judge of circuit or superior court of the county, or by a justice of the peace, and the party whose license is thus revoked barred from owning a horse or mule.

ROBBER CATARRH Steals Energy and Will Power From Its Victims.

Catarrh robs its victims of energy—some physicians say of will power. That may be the reason why thousands of catarrh sufferers haven't ambition enough to accept this fair and square offer by Johnson's Drug Store which makes without any whys and wherefores or red tape of any kind.

Johnson's drug store says: "We guarantee HYOMEI to cure catarrh, acute or chronic, or money back," and that offer is open to every reader of the Republican.

HYOMEI (pronounce it High-ome) is the purest Australian Eucalyptus combined with Thymol and other germ killing antiseptics.

Pour a few drops into the small vest pocket HYOMEI inhaler and breathe it into the lungs over the inflamed membrane infested with catarrh germs.

It is pleasant to use—it kills the germs, soothes the sore membrane, and cures catarrh; if it doesn't your money back.

A bottle of HYOMEI costs 50 cents at druggists everywhere, and at Johnson's Drug Store. A complete outfit, which includes a bottle of HYOMEI, a hard rubber inhaler and simple instructions for use costs \$1.00.

GRAY HAIRS BANISHED.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy and gradually restored the natural color. One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days on account of its souring quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair but will also stop the hair from falling out and make it grow. It is sold by all druggists for 50c. and \$1.00 a bottle, or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

HIGHER PRICES FOR KAINIT.

German Potash Trust Broker Announces Long Expected Increase.

Washington, Feb. 7.—Announcement has just been made by Arthur L. Sardy of Chicago, broker for the German Kali works, that the price of muriate of potash has been increased from \$35.75 per ton to \$37.50. This price is still about \$4 per ton less than that now actually paid by American buyers, inclusive of the German penalty tax, although the Americans are still meeting the competition. Since the execution of contracts by Americans that would have enabled them to make a price of from \$25 to \$26 per ton in this country, which contracts have been held up by Germany, the price named by the German syndicate has ruled without change until this increase.

This is the case in which the state department has been engaged for several months in diplomatic negotiations with Berlin. The American buyers under their contracts with German mines independent of the syndicate have already put up more than \$3,000,000 as penalty tax, which will accumulate from now on, unless the state department is successful in causing Germany to recede from its position, at the rate of about \$1,000,000 per month. It is this tax alone that maintains the price of potash and promises further increases.

It has been pointed out by the American buyers that, while our government is vigorously prosecuting American trusts, this foreign potash trust is allowed to continue its operations in this country in violation of all our anti-trust laws. The German government, co-operating with its potash trust, has imposed a penalty tax solely upon our imports of this product of nearly 150 per cent. In spite of this handicap the American interests have met the underselling of the German trust, which, having no penalty tax to pay, can put potash on the American market at a profit, while the Americans meet with a heavy loss. It is stated by the committee of American buyers that if Germany is compelled to recognize the contracts made by them in good faith and which Germany now attempts to repudiate, the price of potash, instead of increasing, would drop at least \$12 per ton under present prices, making kainit much cheaper than it has ever before been sold in this country.

BOLD WORK OF BLACK HAND ORGANIZATION

Two Pennsylvanians Victims of Murderous Attack.

Punxsutawney, Pa., Feb. 7.—At Brockwayville supposed black hands broke into the home of Charles Volsted, a well-to-do baker, tied him to the posts of his bed, and after vainly searching for money, kindled a fire in the bakery directly under the room in which Volsted was bound. It was not until the flames had burned through the flooring and had communicated to the bed that Volsted was able to free himself.

Dragging himself to the roof of the porch outside his window, by which the marauders had gained admittance, he collapsed just as volunteer fire fighters arrived. He was severely burned about the arms and body.

Half an hour after this Samuel Manning, agent for a brewing company, was attacked near a spot where he had been ordered to leave a sum of money, and knifed in such a manner that twenty-four stitches were required to close his wounds. He was left for dead in the roadway and was found unconscious by some men who were returning home after the fire at Volsted's. Manning is in a serious condition and is likely to die.

Volsted had received four black hand letters, each demanding that he place \$500 in a signified spot, the penalty for failure being the burning of his place and the killing of his wife and child and himself. In each letter he was given three days' grace. The last letter was received last Friday, and it was then that he sent his wife and child away, but resolved to stay himself and defend his property.

Manning received letters demanding he give up \$250. Manning says that two Italians assaulted him, first hitting him over the head with a club and then using their knives. A detachment of state constabulary has been ordered out to scour the surrounding country and try to round up the would-be assassins.

Killed Wife's Former Sweetheart.
Princeton, Ind., Feb. 7.—Charles Billingsly, aged twenty-four, was shot and mortally wounded by Ernest Ross, aged twenty-three. Ross claims that Billingsly had been paying attention to Mrs. Ross, the two having been sweethearts before her marriage.

JAY GOULD
Whose Coming Marriage Was Announced Today.

GOES SISTER ONE BETTER

Jay Gould to Marry Into Royal Family Instead of Mere Nobility.

New York, Feb. 7.—At the wedding reception of Miss Vivien Gould and Baron Decies this afternoon, the engagement of Jay Gould, youngest son of George Gould, and Miss Anna Douglas Graham of 15 West Sixty-seventh street, was announced. The wedding will take place in June.

By marrying Miss Graham Jay Gould goes his sister one better and marries into a royal family instead of mere nobility. The royal family in question is not now a reigning family. It is the royal family of Hawaii. Mrs. Vos, Miss Graham's mother, was before she married Douglas Graham, the Princess Kaiulani of Hawaii.

Two Boys and a Gun.
Crown Point, Ind., Feb. 7.—While playing Indian on their father's farm, nine miles south of here, Wilbur Swanson, twelve years old, unintentionally shot and killed his brother Paul, thirteen years old. The father, who is a wealthy farmer, had been hunting, and upon his return he placed the rifle in the barn. The boys secured possession of it and did not know it was loaded.

POLICE GUARD DECIES' BRIDE

George Gould Took No Chances At Today's Affair.

THREATS HAD BEEN RECEIVED

Though Titled Bridegroom Affected to Laugh at the Incident, the Bride's Father Drew Largely on Resources of New York's "Finest" to Insure the Safety of His Daughter in the Passage From Home to Church.

New York, Feb. 7.—At 4 o'clock this afternoon the wedding of Lord Decies and Vivien Gould, daughter of Mr. and Mrs. George J. Gould, took place at St. Bartholomew's church, which was taxed to its capacity, about 3,000 invitations having been sent out. There was a special musical program and the floral decorations were elaborate. The vested boy choir of St. John the Divine sang, assisted by a quartet.

While Lord Decies and his family and friends affected to think that the recent written threats of violence against him were mere foolishness, the Goulds and the police took the matter more seriously, and when Miss Gould left her home in an auto to go to the church this afternoon she was surrounded by a squad of mounted police, who allowed no one to come near the car. There were fifty men in uniform about the church and as many at the Gould home.

The Wedding Gown.
The bride wore a white satin dress embroidered with silver roses. The train, five yards and a half long, was carried by two little pages in white sailor suits and patent leather pumps. The sons of Lord Decies's brother, Marcus and Graham Beresford of Providence. The bride's wedding gown is the one in which, as Lady Decies, she will be presented at the English court.

After the ceremony there was a reception at the home at 527 Fifth avenue. It is supposed that the bride and bridegroom will go directly to Georgian Court, the Gould residence at Lakewood. This is, however, mere surmise. The place chosen for the honeymoon is naturally not announced. Lord and Lady Decies will, however, sail for Egypt on the Cunard liner Carmania. They will arrive at Alexandria about March 8 and will go direct to Cairo, where Lord Decies has many military acquaintances. Leaving Cairo, they will start on a long journey up the Nile to Luxor, Assuan and the Island Philae. Thence, if the heat permits, they will continue up the Nile as far as Wady Halfa, and there cross the desert to Khartum on the White Nile.

DOESN'T SUIT HIM

Judiciary Recall Provision of Arizona Constitution Objectionable to Taft.

Washington, Feb. 7.—There is practically no doubt here of the attitude that Mr. Taft will assume toward the new Arizona constitution if it is ratified by the people of that state on Thursday. The president's speeches on this subject, his natural habit of mind and especially his determined opposition to any measure that is designed to sap the foundations of the judiciary make it apparent that he will refuse to sign the Arizona constitution if it comes before him in its present form.

The president himself is not expressing any opinion on the constitution, because it is a matter that is to be laid before him for action and he apparently deems it improper to say anything that would interfere with a free expression of opinion by the people of Arizona.

Mr. Taft's friends, however, make no concealment of the fact that the judiciary recall provisions in the constitution is most distasteful to him and that there is no chance of the document receiving his signature with this provision in it.

May Move State Capital.

Jefferson City, Mo., Feb. 7.—Governor Hadley and many members of the legislature favor the immediate passage of an act submitting a plan to the people at an official election for the issuance of \$3,000,000 to \$5,000,000 bonds for rebuilding the state capital. The capital, which burned Sunday, was not insured. The legislature will receive propositions for the removal of the capital to St. Louis or St. Joseph.

RUSH COUNTY BOY IS APPOINTED

Dr. Thomas W. Nadal, Son of Mrs. Jerusha Nadal of Milroy, is Highly Honored.

DEAN OF OLIVET COLLEGE

Has Been Appointed to Position on Michigan Educational Board by Governor Osborne.

Dr. Thomas W. Nadal, son of Mrs. Jerusha Nadal of Milroy, who has been identified with educational work for several years and who for the past twelve years has been associated with Olivet College at Olivet, Michigan, the last six of which he has been dean of the college, has been honored by being appointed a member of the Michigan State educational board by Governor Osborne. Mr. Nadal was born and reared in Anderson township. His mother was formerly postmistress at Milroy and may be remembered by many in that capacity. The Olivet College Echo says of the appointment:

Olivet College has reason to feel proud of the fact that Gov. Chase S. Osborn has seen fit to appoint Dean Nadal as a member of the State Board of Education. This honor has come entirely unsought, his excellent qualifications as an educator being the sole factors in securing the position.

This appointment lasts only until March 2, the date of the Republican State convention, but it is thought that there will be no opposition at that time and he will be nominated for the full term to follow.

Dr. Nadal has never entered into politics until this fall when he was called upon to introduce Mr. Osborn before the primaries. He also made a tour of the upper peninsula in Mr. Osborn's behalf during the gubernatorial campaign. This is the extent of his political activities.

Dr. Nadal is a man of sterling worth and well prepared for the position on the board. He is a native of Indiana and a graduate of De Pauw University. He secured his Master's and Doctor of Philosophy degrees at Harvard, and has spent considerable time in Europe in study and travel.

For twelve years he has been connected with Olivet and has been dean for the past six years. His educational reputation is known throughout the middle west and he is very well known throughout Michigan through his numerous addresses at teachers' meetings and upon the lecture platform.

The Charlotte Republican of last week gives the following article which gives a sketch of how Dr. Nadal happened to be in line for this appointment:

"The governor on Wednesday sent in the nomination of Dr. Thomas W. Nadal, dean of Olivet college, as a member of the State Board of Education, to succeed W. A. Cotter of Escanaba, resigned. The term will expire July 1, 1911, which means a nomination for the place must be made at the approaching Republican State convention. The nomination and confirmation of Dr. Nadal at this time practically makes him a candidate for the full term at the State convention. The appointment is a decided compliment to Dr. Nadal and Olivet College, and Eaton county should be very certain to send a delegation to the Saginaw convention which will advance the interests of the Olivet educator. Governor Osborn first met Dr. Nadal at Olivet on his primary trip through Eaton county and was favorably impressed with the forceful introduction given him by the doctor at that time. Because of the impression he made with the governor during his brief remarks he was invited to do a little spell-binding for the Republican State ticket last fall and filled the Upper Peninsula itinerary originally arranged for Senator Wm. Alden Smith. The trip was a complete success from every angle and it was with much pleasure the governor so early found an opportunity to publicly acknowledge his high regard for Dr. Nadal's splendid ability."
